

# LaSalle Network Bolsters Data Center with Technology Staffing

- Telecommunications
- Contract Placements
- Technology

*A **technology solutions provider** that offers enterprise customers a single resource for telecommunications and IT resource management. They have a proven track record of managing complex networks and providing management and support for carrier networks in multiple markets nationwide.*

## CHALLENGES

The client needed to improve their data center security but lacked internal expertise

They urgently required contract security professionals to clean up their data centers, top-down

## GOAL

Partner with a staffing firm that could deliver qualified candidates quickly and efficiently

**4** Total placements

- Director of Network Operations
- Fortinet SME
- Infrastructure Engineer
- Systems/Network Engineer

**6d**  
Avg. Time to Fill

**5mo**  
Project

The client, facing a critical data center security upgrade, leveraged LaSalle's expertise to quickly staff the project with qualified contract workers. Due to the success of this project, the organization hired on three of our contract placements full time, and have turned to LaSalle for other staffing needs.
